VATAN ALTYAPI INSAAT MAKINA TICARET LIMITED SIRKETI

Vatan Altyapi Insaat Makina Ticaret Ltd. Sti. was founded in 2017 by our company partners who have attended to important and prestigious projects such as highways, bridges, airports, universities, military facilities, stadiums and city hospitals in Iraq, Turkmenistan, Libya, Jordan, Saudi Arabia and Turkey and they brought together a technical team as experienced and qualified as themselves.

We aim to reach a respectable place at the industry via completing our contracts on time and above the expected quality levels.

At our company we give multiple services that can be combined in multiple versions due to our customers' needs. .

We develop custom oriented solutions for our customers, so that they can focus at their own work.

We coordinate simultaneous operations.

Our Mission

- 🔧 Our focus is to benefit from the latest and highest technology applicable at all the areas we give services.
- 🔧 To use our resources at the most economical, efficient and productive way possible to assure customer satisfaction.
- 🔧 To give services due to and above customer expectations.

Our Vision

- 🔧 By creating distinction, providing permanent superiority at the industry.
- 🔧 Being among the most compatible, information providing construction companies and also via being dominant at international markets, to be succesful at big and complicated projects.
- 🔧 To provide consistency via bringing our customers, suppliers and employers together.
- 🔧 To reach widely customer group consist of private and governmental companies, through compatible service and high quality principles.

Environmental Policy

- 🔧 Considering our industry and its effects on the environment, taking applicaple precautions in order to take care of the environment and prevent pollution.
- 🔧 To take necessary steps to prevent and relieve the possible negative pollution.

Work Safety

While our company is running its operations at highest level;

- 🔧 To accept that continuous improvement of the work environment and unexceptional protection of occupational health and safety of employers' and 3rd parties are the main goals of the company. We believe that work accidents can be prevented. We dominate our work with this understanding and improve ourselves continuously.
- 🔧 Our company is structuring our work environment with minimum risk level in terms of work accidents.
- 🔧 While working, we are conscious and we believe that measuring and improving the ISG management system performance doesn't mean increasing the costs, on the contrary it is supporting the commercial profit at the same level.

Quality Management System

- 🔧 Assuring all the employers to have quality awareness.
- 🔧 To complete each project on time, completely coherent with expected quality and within the limits of the estimated budget.
- 🔧 To determine performance improving processes of our projects via self evaluation of our company and necessary technical analysis.
- 🔧 To obey the regulations, standards, contracts, occupational health and safety rules, environmental regulation at all construction, design and production activities.

Ongoing Projects

**Place
Project**

Turkmenistan Candibil
Protocol Road
Maintenance Works

**Contract Scope
Project Due Date**

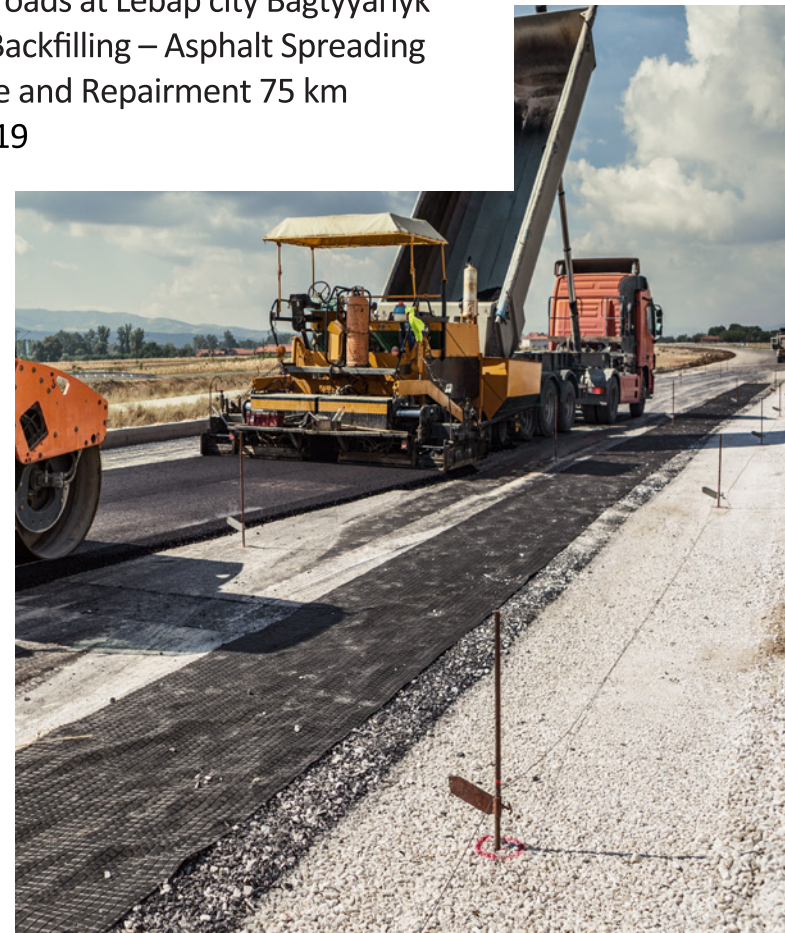

Maintenance and Watering
February 2020

Ongoing Projects

Place	China National Petroleum Corporation
Project	Maintenance and repair of 3rd degree road and current roads at Lebab city Bagtyýarlyk
Contract Scope	Excavation-Backfilling – Asphalt Spreading Maintenance and Repairment 75 km
Project Due Date	February 2019

Completed Projects

Place	Turkmenistan - Ashgabat
Project	Turkmenbasi - Ashgabat Highway Polimeks Holding / Construction and Contracting Services
Achieved Services	875.000 m ³ Earthworks (Excavation and Backfilling) 30 km Asphalt Road Works Executions and Infrastructural Works.

Board of Directors Participation Projects Before Company Establishment

Completed Projects

Place	Turkmenistan-Ashgabat
Project	Ashgabat Olympic Complex Polimeks Holding / Construction and Contracting Services
Achieved Services	1.000.000 m ³ Earthworks (Excavation and Backfilling) 15 km Asphalt Road Works

Completed Projects

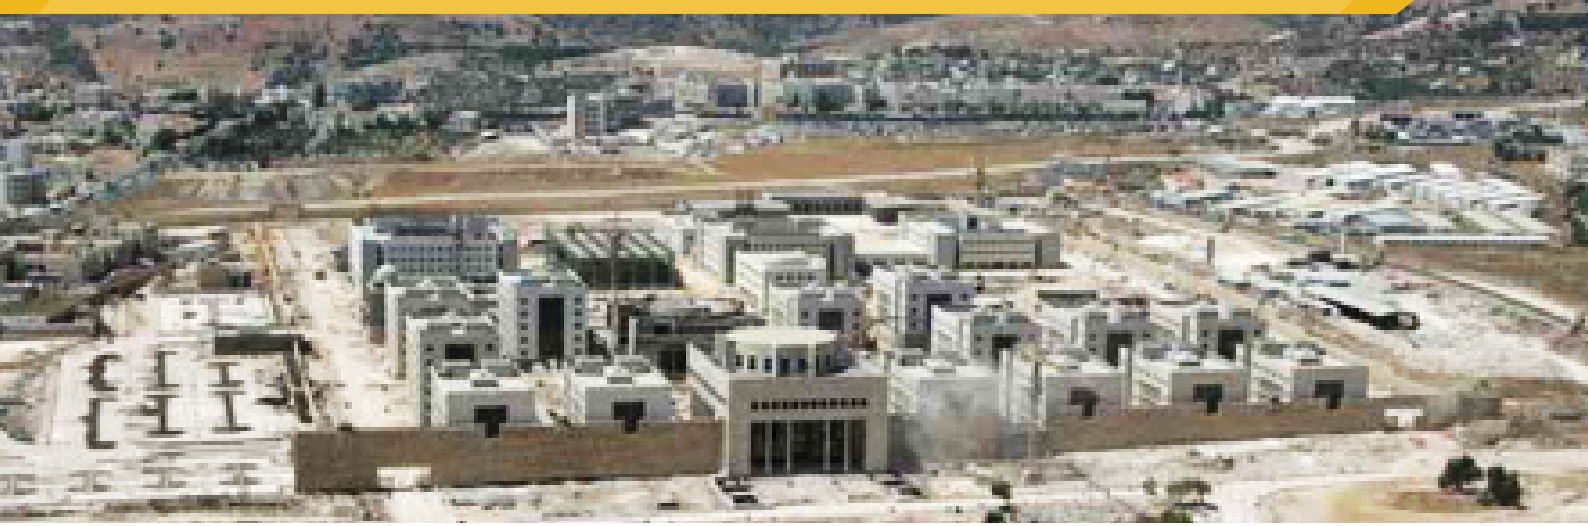

Place
Project

Turkmenistan-Ashgabat
Ashgabat International Airport
Polimeks Holding / Construction and Contracting Services

Achieved Services

2.000.000 m² Runway and Aprons Completed.
1.100.000 mt all Infrastructural Piping and Ducting Lines Completed.
(Included Electrical and Mechanical Pipes)

Completed Projects

Place Jordan
Project New General Headquarter Complex
Yuksel Holding Construction and Contracting Services
Achieved Services Infrastructural Works – Waste, Storm and reusable Water Pipe Lines - 1800 mt
Road Works- 15 km, Electrical and Mechanical Lines, Security cabins and Landscaping Work
Underground Command Center – 20 m Depth From The Earth and 8.000 m²
Construction Area, Rough and Finishing Works Activities.

Completed Projects

Place Turkmenistan-Ashgabat
Project Ashgabat Hotel, Stadium and Wedding Palace Project
Polimeks Holding / Construction and Contracting Services
Achieved Services 2 Synthetic Turf Football Fields
1 Natural Grass Covered Turf

Completed Projects

- Place** Libya
- Project** Tripoli University, Science, Agriculture and Veterinary Faculty
